| Rated current (LO)               | 37.00 A             | Ambient temperature |                              |  |
| Rated current (HO)               | 33.80 A             | Operation (LO)      | -10 40 °C                    |  |
| Output                           |                     | Operation (HO)      | -10 50 °C                    |  |
| Number of phases                 | 3 AC                | Transport           | -40 70 °C                    |  |
| Rated voltage                    | 480 V               | Storage             | -40 70 °C                    |  |
| Rated power (LO)                 | 18.50 kW / 25.00 hp |                     |                              |  |
| Rated power (HO)                 | 15.00 kW / 20.00 hp |                     |                              |  |
| Rated current (LO)               | 38.00 A             |                     |                              |  |
| Rated current (HO)               | 32.00 A             |                     |                              |  |
| Pulse frequency                  | 4000 Hz             |                     |                              |  |
| Output frequency for V/f control | 0 650 Hz            |                     |                              |  |

As a result of legal stipulations, a limit to 550 Hz is in production

#### **Overload capability**

### Low Overload (LO)

140 % output current for 3 s, followed by 110 % output current for 57 s followed by 100 % output current for 240 s in a 300 s cycle time

#### High Overload (HO)

150 % output current for 60 s, followed by 100 % output current for 240 s in a 300 s cycle time
